Anno di fondazione	1994	
Bandiere Wappenprivilegien	<p>The historical group of Cortona boasts two different types of flags. The short ones, used by most of the Italian flag-throwers groups, have the colors and coats of arms of Cortona, among which the most important and characteristic one is the lion of San Marco, a symbol of the city since the Middle Ages. The long flags, on the other hand, are almost 4 meters high. With their movements, they revive the emotions of medieval jousting and, thanks to their majesty, recall the banners on the battlefields.</p>	
costumi	<p>The costumes, realized by a prestigious historical tailor's shop, are inspired by the fashion of the late 14th century. The colors, red flames on a white background, and the shield with the lion of San Marco, are the symbols of the group. Hats with pheasant feathers also enrich the costumes of the musicians.</p>	
eventi/successi più significativi	<p>The group has always carried the name and history of Cortona around the world. Among the many trips, the group boasts those in France, Austria, Portugal, Poland and the United States.</p>	
prossimi manifestazioni	<p>In the second half of June the "Giostra dell'Archidado", the most important event of the year, takes place in Cortona. In the days of the Joust, the city relives the atmosphere of the Middle Ages, among drums, trumpets and flags.</p>	
Motto	We are the Lion!
